## Profile

---

Victoria is a seasoned full-stack developer with 3+ years experiences in building accessible, responsive, and scalable web applications. My technical expertise spans both frontend (React.js, Next.js and Angular) and backend (Node.js) technologies, ensuring that I can deliver comprehensive solutions that meet diverse business needs.

I'm detail-oriented, enthusiastic, and result-driven.

## Professional Experience

---

08/2024 – present **Full-Stack Developer, DLHOSolutions**  
Abuja, Nigeria

- Developed responsive designs that delivers seamless user experience on the frontend.
- Contributed in backend serverless architecture using AWS and GraphQL.
- Contributed to consuming backend endpoints using Apollo client and managing state with Redux toolkit.
- Wrote unit test with Jest.
- Optimized frontend code.
- Collaborated and did code review with the team.

01/2023 – present **Full-Stack Developer, Techroom**  
Uyo, Nigeria

Full-Stack Developer - React, Next.js, Angular and Node.js  
January 2023 - Present

- Developed responsive designs and delivered seamless user experience using React and Angular.
- Managed states using Context API and Redux Toolkit in React, Services and NgRx in Angular.
- Consumed RESTful APIs on the frontend.
- Designed, implemented, and maintained RESTful APIs using Node.js and Express.
- Developed scalable databases with MongoDB.
- Wrote clean, efficient JavaScript code and optimized backend systems.
- Collaborated with teammates to ensure success of the product.
- Troubleshooting and debugging, enhancing performance and reliability.
- Achieved Collaborative development with my team mates using Git for version control.

01/2024 –  
06/2024 **Backend Developer, BuildHubb**  
Abuja, Nigeria

- Designed, implemented, and maintained RESTful APIs using Node.js and Express.
- Developed scalable databases with MongoDB.
- Utilized Socket.io for messaging and Swagger for API documentation.
- Collaborated with frontend developers and product managers for high-quality features.
- Collaborated with project managers and Designers to ensure timely delivery of the product.
- Troubleshooting and debugging, enhancing performance and reliability.
- Improved scalability and reliability through continuous optimization and monitoring.

- Achieved Collaborative development with my team mates using Git for version control.

07/2022 –  
01/2023  
Owerri, Nigeria

### **Frontend Developer, Handy Datas**

- Contributed to building responsive and accessible user interface.
- Consumed restful APIs.
- Collaborated closely with designers and backend developers.

06/2021 –  
05/2022  
Lagos, Nigeria

### **Frontend Developer, TechAssembly**

- Built websites that are responsive.
- Consumed Rest APIs.

## **Skills**

---

HTML, CSS, Tailwind, Javascript, Typescript, React, Nextjs, Angular, Node Js, Express, MongoDB, GraphQL, MySQL, Jest

## **Projects**

---

### **Warm book, (Angular, Node js, MongoDB, React Native)**

Building this ebook site was a great way to learn about angular, react native for mobile and improve my backend skill.

Live Link: <https://warm-book.vercel.app/> 

Frontend: <https://github.com/Vhicky/e-book> 

Backend: <https://github.com/Vhicky/ebook-backend> 

- Developed the frontend using Angular. Ngrx was used for state management and styling was done using vanilla css.
- Developed RESTful APIs backend using Nodejs, Express js and MongoDB.
- Integrated paystack for making payment.
- Files were saved to cloud (AWS S3 bucket).
- Troubleshooting amd Debugging the application.
- Learnt Rxjs.
- Developed mobile version using React Native.

### **Event Management (Nextjs, Node js, MongoDB):, (Nextjs, Node js, MongoDB)**

- Developed the frontend using Next.js, Typescript. Redux Toolkit was used for state management and styling was done using Scss.
- Developed RESTful APIs backend using Nodejs, Express js and MongoDB.
- Integrated paystack for making payment.
- Troubleshooting amd Debugging the application.

### **Real Time Note Collaboration, (React, Node js, MongoDB, React Native)**

- Developed the frontend using React and Typescript. React query was used for erver state management and styling was done using styled component
- Developed RESTful APIs backend using Nodejs, Express js and MongoDB.
- Integrated Google Authenticated using passportjs.

### **My Portfolio, (Next js, Framer motion, Neumorphic design)**

Live Link: <https://victoriaokonnah.vercel.app/> 

Github Repo: [https://github.com/Vhicky/my\\_portfolio](https://github.com/Vhicky/my_portfolio) 

- Developed my portfolio using nextjs, tailwind and neumorphic design.
- Worked on creating a responsive and satisfying user experience.

- Added Beautiful animations using framer motion.
